P R E F A C E

I have the past several years, been working on a small geneology booklet on the descendants of my great grandfather, Christian Byler. Due to the splendid cooperation of the many friends, whom I had written for information, it has exceeded even my fondest expectations, and to all such I extend a hearty "Thank You." I hope it will prove interesting to all who may chance to read it.

THE HISTORY OF THE CITY OF BOSTON

The first settlement in Boston was made in 1630 by a group of Puritan settlers from England. They came to the city in search of religious freedom and a place to practice their faith. The settlers were led by John Winthrop, who was elected the first governor of the city. Under his leadership, the city grew rapidly and became one of the most important centers of commerce and industry in the New England region. The city's economy was based on trade, and it became a major port for the export of goods to other parts of the world. The city's population grew steadily over the years, and it became one of the largest and most prosperous cities in the colonies. The city's history is filled with many important events, including the Boston Tea Party and the American Revolution. The city's architecture is a mix of old and new, and it is a beautiful place to visit.
